

Lavatec TT735 D

75kg steam tumble dryer

TT735 D

A high performance automatic batch tumble dryer. Loading through a large front door with air assisted discharge at the rear. Efficient radial and axial airflow with options for automatic lint collection. Available with tilting to help unloading and infra-red drying control.

FEATURES

Microprocessor control

Energy efficient

Large loading ratio

Heavy duty construction

Heating options

Lint collection options

Large simple interface, 99 drying programs, interfaces with most washing systems

Low running and maintenance costs, options for high efficiency LoNox burner

Large volume drum for excellent tumbling action

Very heavy construction, suitable for dustmats and the heaviest of duty cycles

Steam, thermal fluid oil or hot water

Std. Automatic collection in base of each dryer

Option of lint collection in the side of each dryer

Option of central lint collection from several dryers to one point
