Model 623

Model 643

### Why?

LAVATEC finishing tumblers will give your goods standing pile/loops, full and soft handle, high volume, an even appearance, interesting surface effects (e.g. a natural crush), stability (=shrink resistancy). Therefore, an increased sales value.

### What sort of fabrics?

LAVATEC finishing tumblers will finish your plush, velours, terry (esp. before shearing), bathroom mats, small carpets, blankets of acrylic or wool, pelt-imitations, pelts, leather, pullovers, panty-hose, socks, stockings, feather pillows, quilts, sleeping bags, etc. Altogether a very wide range of the textile, leather and imitation leather goods.

### Which machine?

This depends on the type of goods, the quantity/load as well as the max. temperature. The moisture content, finishing products and desired effects, heating source and the actual installation/transport situation are also important. Within the wide range of our program, we can certainly meet your requirements with a relevant LAVATEC finishing tumbler.

Model 756 with conveyor belt and transport cart with tilting device.
