

Dustmat Rolling

Rugtved MRX dustmat roller

Rugtved MRX

The MRX450 is a high production mat rolling solution. It allows mats to be laid rubber side down which means mats can be inspected for quality on the large feeding table. The table is adjustable to suit the operator. The MRX has a number of options for automatic handling of the rolled mat including automatic strapping and conveying.

FEATURES

Microprocessor control

Ergonomic

High output rates

Efficient operation

Conveyor options

Feed with carpet side up

Management information

Fully programmable, large colour touchscreen interface

The large table accepts mats up to 1500mm wide and is height adjustable
