

VEGA CONVEYORS

For all conveying solutions in laundries.

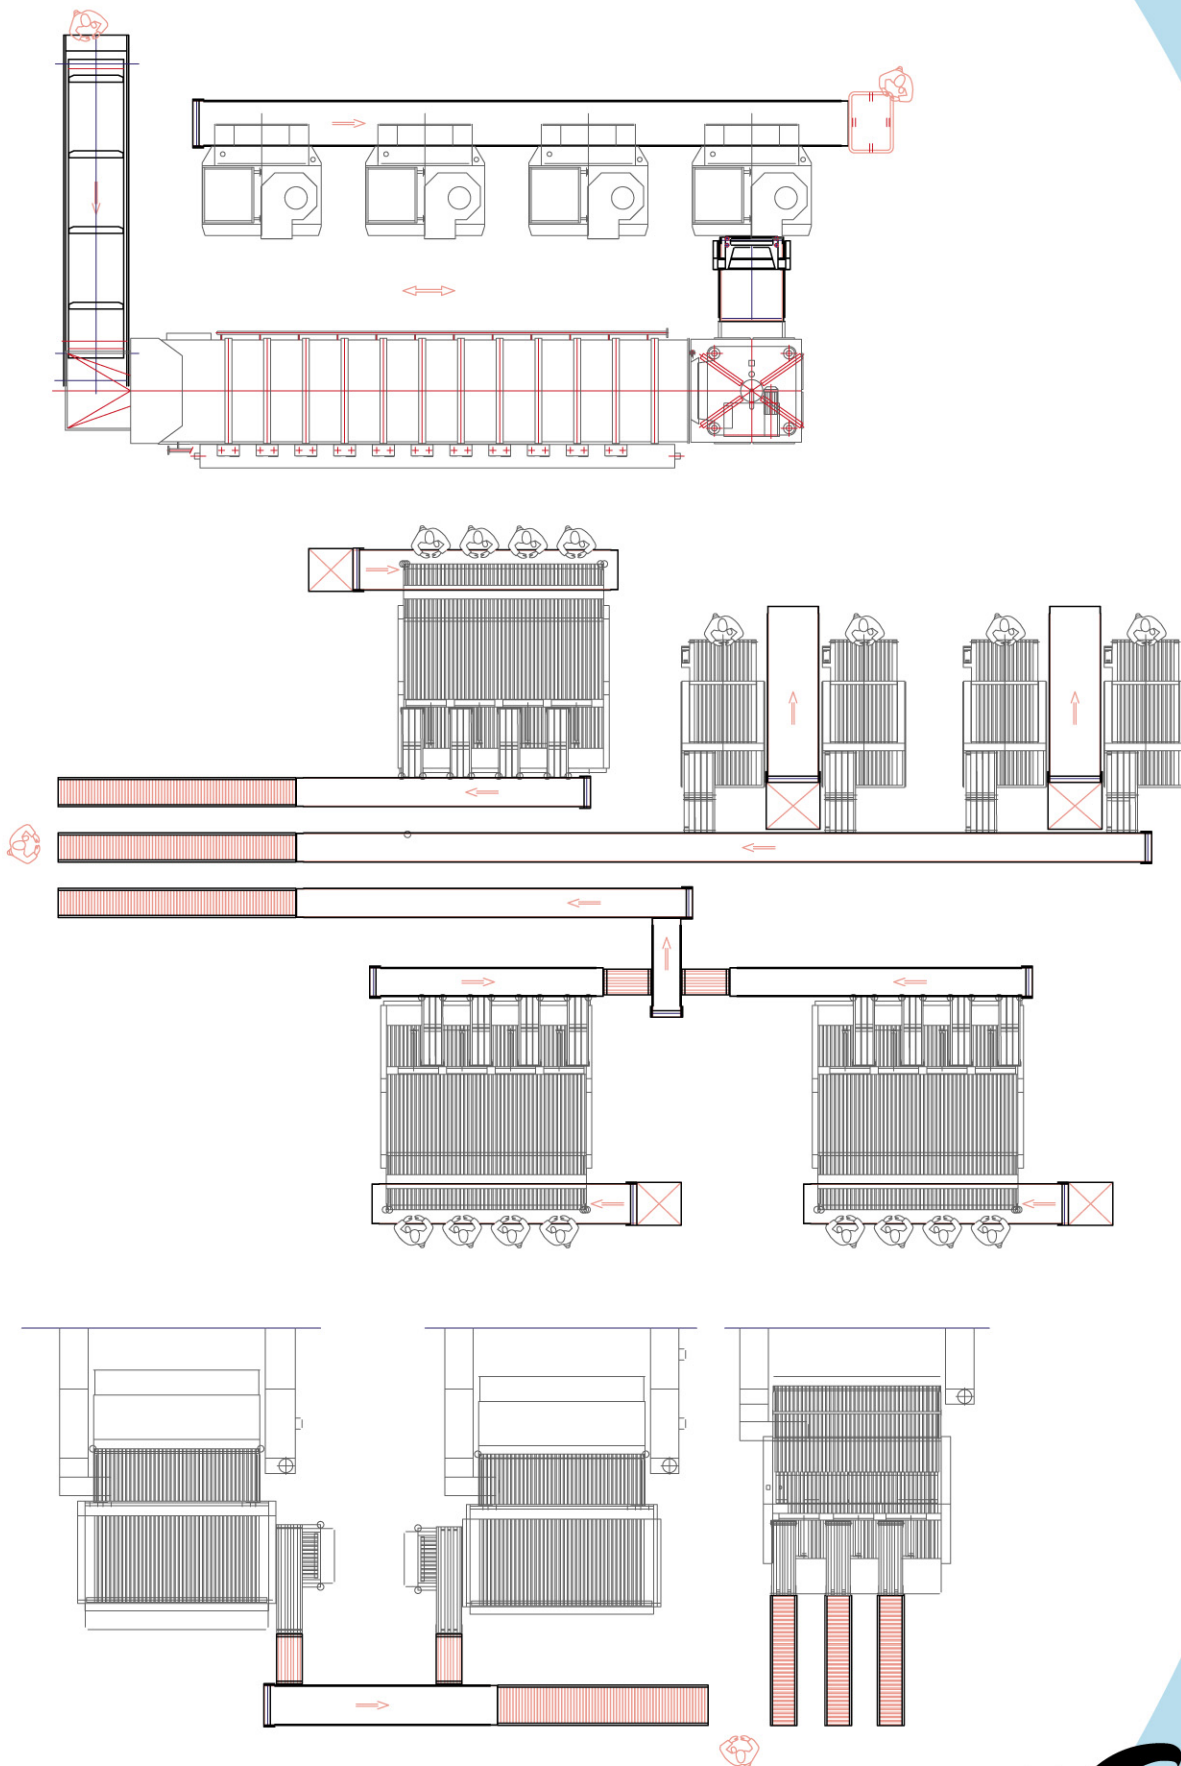

VEGA conveyors are available for all disciplines in the laundry such as:

- Sorting conveyors for bag loading systems.
- Batch loading conveyors for tunnel washers.
- Shuttle conveyors between membrane press and dryers.
- Cake storage conveyors after membrane press.
- Delivery conveyors from dryers to finishing equipment.
- Inclined loading conveyors for dryers.
- Automatic collecting conveyors from folders to central packing area.

The conveyors are of a compact design as they are built according to a modular system.

VEGA conveyors can be offered complete with a PLC-system.

For all conveyors required we can offer a design solution.

OPTIONAL:

- Custom made solutions according to lay-out.
- Complete stainless steel conveyors.
- Conveying systems complete with PLC-system.

INSTALLATION AND SERVICE:

Please contact VEGA-systems for more detailed lay-outs and technical data required for installation and service.
