

Lavapress LP58 I

High Pressure Extraction Press

Lavapress LP58 I

A high performance moisture extraction membrane press with a maximum pressure of 50 Bar. A proportional hydraulic controller ensures that pressure can be applied as gently or as forcefully as necessary, depending on the type of linen. A unique drainage plate design and the flexible control make this a most efficient means of moisture removal.

FEATURES

- Proportional Control
- Standard Lavatec membrane
- Drainage Plate
- Cake conveyor belt
- Extremely heavy duty
- Energy efficient
- Hygienic option
- Handing options

Totally programmable control, pressure selectable between 0 and 50 Bar

Compatible with the standard range of Lavatec membranes

Unique drainage plate ensures clear channels are maintained for escaping water

The special conveyor belt material prevents lint blinding, even at high pressure.

Maintains the Lavapress tradition for reliability and build quality

Moisture removed in the press is approximately 15 times cheaper than drying

Built in disinfection option for healthcare / hygienic applications

Right, left or axial configurations with various conveyor options
